# 23<sup>rd</sup> Project Management Professional® Review Program

The workshop is intended to prepare project managers and professionals to sit for the Project Management Professional (PMP)® certification examination. It provides a formalized approach that consists of presentations, articles, quizzes, and exams, group learning activities and self-study. It is designed to provide the attendees with a thorough and complete review of the theory of Project Management as detailed in the Project Management Institute's (PMI)® *A Guide to the Project Management Body of Knowledge (PMBOK® Guide)*. The five process groups, ten knowledge areas, and 49 processes will be reviewed and discussed. There will be exercises throughout the workshop and a mock exam on the 5th day.

Assessments of learning throughout the workshop will be given along with personal study strategies. This workshop would fulfill one of the PMP® application eligibility requirements (35 contact hours of specific project management education.)

## OBJECTIVES

1. Assist attendees in completing the PMP® eligibility application.
2. Prepare attendees to successfully sit in for the PMP® exam.
3. Facilitate the discussions on various topics in the project management field that will empower the attendees to pass the PMP® exam.
4. Expose attendees to simulated exams and quizzes that will challenge their project management knowledge, analysis, and ability to complete exams with time constraints.
