ONLINE PROJECT MANAGEMENT PROFESSIONAL® REVIEW PROGRAM

The self-guided online course is intended to prepare project managers and professionals to sit for the Project Management Professional (PMP)® certification examination. The online course provides a formalized approach that consists of presentations, articles, quizzes, and exams. This is also designed to provide the participants with a thorough and complete review of the theory of Project Management as detailed in the Project Management Institute's (PMI) *A Guide to the Project Management Body of Knowledge (PMBOK® Guide)*.

Online course participants will receive assessments of learning throughout the online course. Participants will also identify the five process groups, ten knowledge areas, and 49 processes contained in PMBOK® Guide. The online course would fulfill one of the PMP® application eligibility requirements of 35 contact training hours of specific project management education.

OBJECTIVES

- To become familiar with project management concepts from Project Management Institute (PMI)® perspective.
- Prepare attendees to successfully sit in for the PMP® exam.
- Present various topics in the project management field that will prepare the attendees to pass the PMP® exam.
- Allow attendees to experience simulated exams and quizzes that will challenge their project management knowledge, analysis, and ability to complete exams within time constraints.

PROGRAM CONTENT

There are eleven modules what will be covered in this course:

- Project Management Framework and Processes
- Project Integration Management
- Project Scope Management
- Project Schedule Management
- Project Cost Management
- Project Quality Management
- Project Resource Management
- Project Communications Management
- Project Risk Management
- Project Procurement Management
- Project Stakeholder Management

WHO SHOULD ATTEND

Experienced project managers who are aspiring to become certified Project Management Professionals (PMP)®.
