ABOUT AGSB-CCE

The Ateneo Graduate School of Business - Center for Continuing Education (AGSB-CCE) was established to complement the existing Ateneo-BAP Institute of Banking, a consortium between the Ateneo de Manila University and the Bankers Association of the Philippines. It was initially known as the Basic Leadership Program (BLP) until the name was changed to Continuing Professional Education (CPE) and then finally, to Center for Continuing Education (CCE).

Under AGBS, CCE takes an active role in addressing specific industry concerns that require immediate, purposeful, and focused response. As an industry resource and partner, CCE offers continuing professional development programs that are workplace-based with immediate take-away value. Methodologies are based on business simulation, practical exercises and applications, case analyses, and focused discussions. Courses are designed, developed and delivered by industry practitioners who are noted experts in their respective fields. Together, AGBS and CCE support the Ateneo mission to promote excellence, integrity and service.

WHO SHOULD ATTEND?

This course is recommended for individuals involved in the finance/treasury function across industry lines, stock, investment and financial analysts of stock brokerage firms, and business entrepreneurs who would like to put a better handle on their firms' financial affairs.

OBJECTIVES

Successful completion of this module enables the participants to:

- ➔ Appreciate and understand the objectives, role and importance of finance in business;
- ➔ Learn the concepts, related calculations and practical applications of the mathematics of finance and investments;
- ➔ Utilize basic financial planning and forecasting tools for business decisions;
- ➔ Identify, define, analyze and manage the various types of risks the finance manager faces in the routine course of business;
- ➔ Efficiently manage a firm's working capital accounts;
- ➔ Evaluate long-term investments/projects using the most effective evaluation methodologies;
- ➔ Identify, describe and evaluate the various short-, medium- and long-term financing sources available to a firm;
- ➔ Calculate and understand the importance of a firm's weighted average cost of capital.

FINANCE 101: ESSENTIALS OF FINANCIAL MANAGEMENT

The finance function plays a crucial role in ensuring the continuing viability of a firm particularly during periods of uncertainty. This basic course examines through a “user-friendly,” yet comprehensive way the finance function in the corporate setting, its scope of responsibilities and authorities, and its linkages with other segments of the organization. Emphasis is placed on the discipline as a function of management, on the routine problems encountered by the financial manager and his/her methods of solution, and the rationale for his/her decisions.

The course doubles as “Introductory Module” for the Center’s rigorous Diploma in Corporate Finance Program. It is an excellent venue, too, to understand and appreciate the discipline’s *raison d’être* and its multidisciplinary reach.
