ABOUT AGSB-CCE

The Ateneo Graduate School of Business - Center for Continuing Education (AGSB-CCE) was established to complement the existing Ateneo-BAP Institute of Banking, a consortium between the Ateneo de Manila University and the Bankers Association of the Philippines. It was initially known as the Basic Leadership Program (BLP) until the name was changed to Continuing Professional Education (CPE) and then finally, to Center for Continuing Education (CCE).

Under AGBS, CCE takes an active role in addressing specific industry concerns that require immediate, purposeful, and focused response. As an industry resource and partner, CCE offers continuing professional development programs that are workplace-based with immediate take-away value. Methodologies are based on business simulation, practical exercises and applications, case analyses, and focused discussions. Courses are designed, developed and delivered by industry practitioners who are noted experts in their respective fields. Together, AGBS and CCE support the Ateneo mission to promote excellence, integrity and service.

WHO SHOULD ATTEND?

This course is designed for chief executive officers, chief financial officers, financial analysts, investment analysts, accountants, and practitioners who wish to upgrade their understanding and skills in financial management issues and problems.

FINANCIAL MARKETS AND CORPORATE FINANCE

15th Diploma Program in Corporate Finance: Intermediate Module

This online program is designed to provide the participants with a substantive background on the financial markets as potential sources of capital, and the various financial instruments/securities firms use as vehicles to raise funds.

The module presents the capital structure theories, cost of capital, and dividend policy formulations that affect the behavior of the financial markets. It likewise discusses the determinants of optimal capital structure that diminish cost of capital and enhance firm value.

The module also covers the basic principles of equity valuation crucial for performing equity research, recommendations, peer comparisons and portfolio creation and management. Participants will also take a practical look at stock market trading and operations.

PROGRAM OUTLINE

- I. The balance sheet model as a capital structure
- II. Cost of capital and the weighted average cost of capital (WACC)
- III. Optimal capital structure: ideal or practical?
- IV. The capital markets: debts and equities
- V. Dividend theories, policies and practices
- VI. Equity securities analysis
- VII. Portfolio creation and management
- VIII. Stock market trading and operations
