ABOUT AGSB-CCE

The Ateneo Graduate School of Business - Center for Continuing Education (AGSB-CCE) was established to complement the existing Ateneo-BAP Institute of Banking, a consortium between the Ateneo de Manila University and the Bankers Association of the Philippines. It was initially known as the Basic Leadership Program (BLP) until the name was changed to Continuing Professional Education (CPE) and then finally, to Center for Continuing Education (CCE).

Under AGBS, CCE takes an active role in addressing specific industry concerns that require immediate, purposeful, and focused response. As an industry resource and partner, CCE offers continuing professional development programs that are workplace-based with immediate take-away value. Methodologies are based on business simulation, practical exercises and applications, case analyses, and focused discussions. Courses are designed, developed and delivered by industry practitioners who are noted experts in their respective fields. Together, AGBS and CCE support the Ateneo mission to promote excellence, integrity and service.

WHO SHOULD ATTEND?

Individuals who need to strengthen their project management skills, new project managers, project team members, project sponsors, project proponents, new product development, project managers who need refresher course on project management knowledge, processes, competencies and tools.

OBJECTIVES

After the course, you will:

- ➔ Learn the basics of the Project Management Framework;
- ➔ Learn how to use techniques and tools for the Project Management discipline;
- ➔ Learn how to create Project Charters, WBS, Network Diagrams, and Project Reports; and
- ➔ Narrate and describe each phase of the Project Life Cycle from the start to the end of a project.

THE ACCIDENTAL PROJECT MANAGER

Technical and functional managers of today are being pressured to take on the challenges of Project Management. The Accidental Project Manager is designed to give you an accelerated understanding of the practice. The program will help you navigate and survive the transition from technical and/or functional manager to a project manager.

This is a 5-week applied, Project Management course. Project managers will welcome this fresh translation of jargon into ordinary English.
