ABOUT AGSB-CCE

The Ateneo Graduate School of Business - Center for Continuing Education (AGSB-CCE) was established to complement the existing Ateneo-BAP Institute of Banking, a consortium between the Ateneo de Manila University and the Bankers Association of the Philippines. It was initially known as the Basic Leadership Program (BLP) until the name was changed to Continuing Professional Education (CPE) and then finally, to Center for Continuing Education (CCE).

Under AGBS, CCE takes an active role in addressing specific industry concerns that require immediate, purposeful, and focused response. As an industry resource and partner, CCE offers continuing professional development programs that are workplace-based with immediate take-away value. Methodologies are based on business simulation, practical exercises and applications, case analyses, and focused discussions. Courses are designed, developed and delivered by industry practitioners who are noted experts in their respective fields. Together, AGBS and CCE support the Ateneo mission to promote excellence, integrity and service.

WHO SHOULD ATTEND?

- Those who want to strengthen their project management skills
- Project managers
- Project team members
- Project sponsors
- Project proponents
- Product developers

OBJECTIVES

After the course, you will:

- ➔ Differentiate between projects, programs, and portfolios.
- ➔ Understand the different functions of the project manager, program manager, and the PMO.
- ➔ Identify different strategies in program management.

THE PROGRAM MANAGEMENT: MANAGING SEVERAL PROJECTS

Be in charge! Very few of us manage just one project at a time. Organizations over the world seeks to improve the way it manages several related projects. This is an applied course that meticulously cover the key concepts and theories derived from best practice standards in program management. The process of managing several related projects, whether it be common goals or common resources or both, this course seeks to show the way how to manage and improve the organization's capabilities in managing many projects.

Gain access to well-illustrated and business-tested forms, charts, logs, tables, and worksheets - everything project managers need to crash, level, analyze, plan, and control tasks. Increase your creative success through class activities designed to teach tips, shortcuts, and tricks of the program management trade.

This is a 3-week applied, Project Management course.
